HHF INCENTIVE FINALE AND AWARDS EVENT

PIG ROAST AND SERIES AWARDS SATURDAY!

**Hasty Hills Farm Inc.
Pit Road, Java Center, NY**

Show Managers: Becky & Jaime Bates

A Note to Trainers and Exhibitors:

Thank you all so much for your support throughout the years! We like to be the show to go to when you're starting out your young horses and riders, as well as the more experienced. We try to keep the rings and courses simple yet nice enough to prepare them for that next step up. We feel that our shows provide a good bridge between the local and rated shows while keeping it cost-effective. And since you know we love our Thoroughbreds please keep them coming! We truly enjoy seeing them out there progressing in their second career.

HHF is proud to announce that they are taking on the Genesee Valley Breeders Association classes in conjunction with their own August HHF Show this year. The prize money allocated by New York state through GVBA has been made available to the exhibitors at the show .

Stalls are available on a first come, first serve basis. Please call or text (716) 913-0392 to make reservations.

Thanks so much!

Becky & Jaime

## **State of New York Department of Agriculture and Markets**

### **PART350 – STANDARDS OF CONDUCT FOR FAIRS–**

350.9 ownership of exhibits entered in fairs and shows. (a) Ownership must be entered in the name of the exhibit owner; provided, however, that any animal entered in a youth fair, youth exhibit, or 4–H show or exhibition may be entered in the name of the exhibitor. (b) Exhibits shall have been owned by the exhibitor for a period of at least 30 days prior to entry of the exhibit; provided, however, that any animal exhibit entered in a youth fair, youth exhibition, or 4–H show or exhibition shall have been in the care of the exhibitor for a period of at least 60 days prior to entry of exhibit. (c) Proof of ownership of all exhibits shall be provided by the exhibitor, upon request, to the fair sponsor. (d) The fair sponsor may limit the number of breeds shown by an exhibitor.

350.10 Rejection or refusal of an exhibit. Any fair society shall reserve the right to reject or refuse and to order the removal of any exhibit which, in the opinion of its board of directors, is not eligible or worthy of showing or has not met the livestock health requirements. 350.11 Compliance with an enforcement of livestock health requirements. Each fair or exposition which receives money from the state pursuant to article 24 of the Agricultural and Markets Law shall comply with and enforce the livestock health requirements set forth in Part 351 of this chapter.

### **–HEALTH REQUIREMENTS–**

351.3 General Health Requirements. (a) Animals demonstrating clinical signs or other evidence of infectious, contagious or communicable diseases are not eligible for exhibition fairs. (b) The commissioner or an authorized agent may deny admission to, or require segregation or removal from, the fair premises of any animal affected with or exposed to any infectious, contagious or communicable disease. (c) Animals from the State that qualify for exhibition under the Part at one fair shall be considered to be approved for exhibitions at all other New York State fairs conducted during the same calendar year provided that the health status of the individual animal or the herd of origin does not change in the interim period. (d) All animals presented for exhibition that originate from a location other than this state shall meet all state importation regulations appropriate to the species in addition to the requirements of this Part. Examinations made to qualify out-of-state animals after arrival in this state will not be accepted. State importation requirement can be obtained by contacting the Department at 1Winners Circle, Albany, New York 12235 (518–457–2886). (e) A fair may require proof that any animal being exhibited is actively immunized against rabies with a vaccine appropriate to the species. Equine Infectious Anemia Test (EIA/Coggins) – A valid EIA chart documenting that the animal has been tested (any USDA approved test) within the current or previous calendar years (2014 and 2015 for this fair season) and found to be negative for EIA infection, is required of all equines 6 months of

age and older. The animal identification notes on all accompanying documents must match the description on the official EIA chart. The required certificate or statement shall include a complete identification of the horse, the date of the test and the name and address of the laboratory that conducted the test. The certificate or statement must be signed by a duly licensed veterinarian, the director of the laboratory where the test was conducted or the chief animal health officer of the horse's state of origin. Rabies Vaccination – Proof of active immunization against rabies required. Proof of rabies vaccination will be required at all fairs for those species that a USDA licensed vaccine is available (as of 1/1/01 – cattle, cats, dogs, horses, ferrets and sheep). The vaccine must be administered at least 14 days prior to arrival on the fairgrounds but no greater than the labeled time specified for active protection against rabies. The animal's rabies vaccination status must remain current throughout its stay on the fairgrounds. Rabies vaccination of all other mammalian species is strongly recommended. Some fairs may require rabies vaccination of mammalian species not indicated on the label. Please inquire locally. Local rabies requirements will be enforced by state personnel. Minimum age for Vaccination: Animals 150 days of age or older on the date of arrival at the fair must be vaccinated for rabies (for those species requiring vaccination). NOTE: Rabies titers in lieu of current rabies vaccination is not acceptable.

351.12 Segregation on return home. The owner or custodian shall keep show animals segregated from the herd flock for a period of at least two weeks.

351.13 Requirements In fair premium book. (a) The forgoing requirements must be printed in each fair's premium book. (b) No fair shall impose requirements in addition to, or different from those requirements set forth under

#### Animal Health Requirements For Admission to New York State and County Fairs (Part 351 of NYS Agriculture and Markets Regulations)

NYS Department of Agriculture and Markets/Division of Animal Industry 10B Airline Drive,  
Albany, NY 12235 518-457-3502 [www.agriculture.ny.gov/AI/AIHome.html](http://www.agriculture.ny.gov/AI/AIHome.html)

#### General Prohibitions and Requirements

- No person shall bring or have present an animal on the fairgrounds during a fair which is not qualified under NYS regulations.
- No person shall present an interstate or intrastate certificate of veterinary inspection that has been altered by anyone other than the issuing veterinarian.
- Animals demonstrating clinical signs or other evidence of infectious, contagious or communicable diseases shall not be allowed on the fairgrounds during a fair.
- Representatives of the Commissioner may deny admission to or require removal from the fair premises, or require the segregation of any animal showing signs of or exposed to any infectious, contagious or communicable disease. NOTE: The fair board of directors has the authority to reject unworthy or unsightly exhibits for reasons other than infectious, contagious or communicable disease (Part 350.10). The state veterinarian or animal health inspector will bring questionable exhibits to the attention of the fair board.
- All animals presented that originate from a location other than New York shall meet all New York State importation regulations appropriate to the species in addition to the fair animal health requirements.

#### Animal Identification

##### • ALL MANMADE ID MUST BE RECORDED

A complete written description is sufficient identification for horses entering New York accompanied by a CVI. The description must match the EIA test record. Horse sketches and descriptions should reference color pattern, hair whorls, chestnuts, scars and other markings as necessary to uniquely identify the horse. Tattoos and microchips if any should be included. "Bay, no markings" is not an acceptable description for a CVI or EIA test record. • NOTE: If you are exhibiting animals identified by microchip a working reader must be supplied by the exhibitor. • For questions on animal identification please contact your veterinarian or our office at 518-457-3502.

#### RABIES VACCINATION

- Rabies vaccination is required for all species for which there is a USDA licensed vaccine available (cattle, horses, sheep, dog, cat, ferret) and that are 4 months of age or older on the

date of admission to the fair. Vaccine must have been administered within the past 12 months. The exception is Imrab LA vaccine used in sheep which protects for 3 years after the second annual vaccination (consult your veterinarian). • The rabies vaccination requirement must be met on the day of admission even if the animal was previously admitted to a fair when too young to vaccinate. • NOTE: Individual fairs can require animals for which there is no approved rabies vaccine to be vaccinated for rabies. The requirements outlined above would apply. The fair is responsible for notifying exhibitors. The New York State Fair requires rabies vaccination for all livestock species entering the grounds. Acceptable Proof of Rabies Vaccination • Acceptable proof of rabies vaccination must include a signed written statement from the veterinarian administering the vaccine or a valid certificate of veterinary inspection that has the vaccination listed and is signed by the Category 2 accredited veterinarian. • Acceptable proof of rabies vaccination must include the name of the product used, the date of administration and the duration of immunity if longer than one year. • If the statement of rabies vaccination is included on an EIA test record, it must be signed separately in addition to the required EIA test record signature. • NOTE: Rabies titers are not acceptable proof of rabies protection and cannot be used to meet entry requirements. • Acceptable proof of vaccination for dogs is a valid vaccination certificate or a copy of the dog license that contains the rabies vaccination information.

#### HORSES

• Certificate of Veterinary Inspection (CVI) is not required for New York origin horses. CVI is required for imported horses. • Negative Equine Infectious Anemia (EIA) test is required for all horses 6 months of age or older. The horse must be accompanied by a valid negative EIA test record. The test must have been conducted during the current or previous calendar years for New York origin horses. For imported horses, the test must be conducted within 12 months of entry. • The EIA test certificate must include a complete description of the horse. • Rabies vaccination is required for all horses 4 months of age or older (see above). • A valid GoPass equine passport can be used as an entry document. If interested in the GoPass contact your veterinarian. More information is available at GlobalVetLink : <http://www.globalvetlink.com/>

#### ISOLATION ON RETURNING HOME

• The owner or custodian shall keep show animals biologically separate from the herd or flock for a period of at least two weeks after returning to the premises of origin. If any illness is noted in the exhibition animals the owner should contact their veterinarian immediately.
